FRITZ 10 DVD: THE ULTIMATE CHESS GAME!

Fritz is the program that for many years now has fascinated the chess world. The pitting of wits of the strongest players on the planet against the world's finest chess playing program has generated unprecedented media attention.

But don't be afraid – Fritz will help you along during the game, with numerous coaching functions, adjusting its playing strength to match that of any opponent. It graphically displays threats and plans, and provides full opening statistics. For beginners Fritz will warn you of dangers and of errors you are committing. It has instructive training modules and amusing handicap levels. For club and tournament players Fritz will help you to study your games and find new opening ideas for tournaments. A database with more than a million games provides the basis for state-of-the-art analysis. Even Garry Kasparov has used Fritz on a regular basis.

With its Chess Media System Fritz brings the world's greatest chess players into your living room, in high resolution video and sound and a synchronised graphic chessboard.

Fritz provides you with a one-click connection to the largest chess community in the world, Playchess.com, which has over 200,000 members.

ALEXEI SHIROV: MY BEST GAMES IN THE SICILIAN (DVD) (CBDAS2)

Since 1992, Alexei Shirov has belonged to the best players in the world. Many of his brilliant games are characterised by his famous uncompromising attacking play, often leading to a finish that comes as a surprise – not only to the opponent, but also the spectators. Now the genius from Riga presents and explains his best games in a series of training DVDs. On this DVD Shirov focuses on his most outstanding achievements in the Sicilian (except the Najdorf which is dealt with on a separate DVD), a personal selection combining highest chess quality with aesthetic pleasure. His lectures are designed to not only explain the different opening lines, but also to present interesting and sometimes perplexing ideas and sacrifices in the middlegame. On this brilliant training DVD with a total playing time of nearly 4 hours, you will find Shirov play Anand, Kramnik, Leko and other top players.

Contents: Intro & Kan Variation (40:33) Taimanov Variation (34:51) Paulsen System (30:03) Sveshnikov Variation (23:10) Rossolimo Variation 1 (31:04) Rossolimo Variation 2 (30:48) Richter-Rauzer Attack 1 (16:38) Richter-Rauzer Attack 2 (23:19) Total playing time: 3h 50 min. System requirements: Pentium-Processor at 300 Mhz or higher, 64 MB RAM, Windows 98SE/2000/XP, Windows Media Player 9.0, DVD drive. **Price: £19.95**

ALEXEI SHIROV: MY BEST GAMES IN THE SICILIAN NAJDORF (DVD) (CBDAS3)

On this DVD by Shirov, you will find his most brilliant games in the Sicilian Najdorf. More than 3 hours entertainment and enlightenment, all packed in one.

PC System requirements: as above. Price: £19.95

FRENCH DEFENCE - ARI ZIEGLER (DVD) (ref. CBDFD)

The French defence is a very powerful defence. On this DVD you will be presented a coherent strategic repertoire against 1.e4. The theme is to always attack White's centre with the f- and c-pawns, and then with the pieces until nothing is left of it. The recommended repertoire is based on understanding rather than memorization. You will learn which pawn formations to strive for, how to implement powerful manoeuvres and to recognise strong moves. You will also learn when it is time to switch to an attack against the opponent's king. The recommended lines are solid and you will be able to play them for many years. International Master Ari Ziegler is a renowned theoretician in Sweden.

This DVD covers: 1.e4 e6 2.d4 d5 3.e5 c5 • 1.e4 e6 2.d4 d5 3.Nd2 Nf6 4.e5 Nfd7 • 1.e4 e6 2.d4 d5 3.Nc3 Nf6 4.e5 Nfd7 • 1.e4 e6 2.d4 d5 3.Nc3 Nf6 4.Bg5 Be7 • 1.e4 e6 2.exd5 • 1.e4 e6 2.Nf3 d5 3.Nc3 • 1.e4 e6 2.d3 • 1.e4 e6 2.Qe2 • 1.e4 e6 2.Nf3 d5 3.b4 (Wing Gambit). Running time: 6h 48min.

System requirements: Pentium 300 Mhz+, 64 MB RAM, Windows 98 SE/2000/XP, Windows Media Player 9.0, DVD drive.

ABC OF THE CARO-KANN - ANDREW MARTIN (DVD) (ref. CBDCK)

The ABC of the Caro Kann describes a repertoire for Black which will stand the test of time and the main ideas and themes of the opening are explained in Andrew Martin's usual friendly, accessible style. The Caro-Kann is a permanent defence to 1 e4! Video running time: 4 h 13 mins.

Andrew Martin is an International Master living in England who has authored several best-selling DVDs. He is the current World Simultaneous Display record holder as catalogued in the 2006 edition of the Guinness Book of Records.

System requirements: Pentium-Processor 300+Mhz, 64 MB RAM, Windows 98SE/2000/XP, Windows Media Player 9.0, DVD drive.

WORLD CHAMPION'S GUIDE TO THE KING'S INDIAN (DVD) - Rustam Kasimdzhanov (CBDWG)

This disk is a perfect tool for players looking for a complicated battle against 1.d4. The author suggests the King's Indian Defence and shows, with a number of examples, how realistic Black's chances are to achieve a complex structure with serious attacking potential. Apart from theoretical information, the disk also contains structural insights and an array of ideas which will enable you to incorporate this opening into your repertoire immediately and with tangible success! Video running time: 3hours 25 mins.

Rustam Kasimdzhanov was born in 1979 and is a grandmaster from Uzbekistan. In 2004 he shocked the chess world by winning the FIDE world chess championship title. Kasimdzhanov is a very deep player, who is able to explain chess ideas in an eloquent, lucid style, with a fine touch of humour. His lessons are both entertaining and instructive.

System requirements: Pentium 300Mhz +, 64 MB RAM, Win 98SE/2000/XP, Windows Media Player 9.0, DVD drive. Price: £21.95

THE PATH TO TACTICAL STRENGTH (DVD) - Rustam Kasimdzhanov (CBDPT)

In spite of the fact that many books have been written on tactics in chess, many players still find it extremely difficult to recognize tactical patterns and calculate ensuing lines. With this DVD the author not only gives a large number of examples of tactical motifs, trying to cover as many ideas as possible, but also suggests a method which will greatly help you to see various tactical motives and systemize your calculation. Video running time: 4hours 15 mins. Rustam Kasimdzhanov was the 2004 FIDE world chess champion.

System requirements: Pentium 300Mhz +, 64 MB RAM, Win 98SE/2000/XP, Windows Media Player 9.0, DVD drive. Price: £21.95

SICILIAN ALAPIN SYSTEM - Dorian Rogozenko (CD) (CBSA)

Dorian Rogozenko's CD can help you construct a strong repertoire against the Sicilian. This is a major new work, which reflects the latest state of theory and even goes beyond it. Includes: 54 database texts, 500 games annotated by the author, large database with 75,000 games, training database, viewing software based on ChessBase 9.0

System requirements: Pentium, 32 MB RAM, Win98SE/2000/Me/XP £19.95

CHESS ENDGAMES 3: MAJOR PIECE ENDGAMES (DVD)- Karsten Muller (CBDCE3)

The third part of the endgame series tackles queen endings, rook against minor pieces, queen against rook and queen against two rooks. Queen endings are not nearly as mysterious as they appear at first sight. Knowing a few rules of thumb and principles will make things very much easier for you. Those who have always found studying endgames with chess textbooks too dry and tedious will enjoy this DVD with its comfortable training system and benefit enormously - in better endgame play at the actual board. Complete video running time: 7 hours.

System requirements: P-300Mhz, Win98SE/2000/XP, 64Mb RAM, Windows Media Player 9, DVD ROM drive. Price: £21.95

OPENING REPERTOIRE FOR BLACK - Alexander Bangiev (CD) (ref. CBORB)

Bangiev has developed a new method of training, his squares strategy, and he has now prepared a CD with a Repertoire for Black along the lines of squares strategy. The system which he suggests is based on a setup with g6, Bg7 and c5, which can easily be applied as a reply to the main white openings. The author has years of experience with this setup, the benefit of which he now passes on to his students. The author's work occupies three databases:

- a) Theory: with 5 introductory texts, 149 theoretical fragments of games and 36 annotated games.
- b) Reference database with over 100,000 games and an opening key specially developed for this CD.
- c) Training database with 166 exercises.

System requirements: Pentium, 32MB RAM, Windows 98SE/2000/Me/XP

10% discount on orders for two or more CDs/DVDs (excludes special offers)

ABC OF THE BENKO GAMBIT - A Andrew Martin (DVD) (ref. CBDBG)

On this DVD, International Master Andrew Martin traces the history of the Gambit from the games of Opocensky, Lundin and Stoltz back in the 1930s, through the golden age of Bronstein, Benko and Browne all the way to the present day.

Martin describes the main themes and ideas of the Gambit and gives sound guide lines, so that any one who wants to play the Benko Gambit, will be well equipped. The DVD contains more than 4 hours of video lessons.

System requirements: Pentium 300 Mhz+, 64 MB RAM, Windows 98SE/2000/XP, Windows Media Player 9.0, DVD drive.

OPENING FOR WHITE ACCORDING TO KRAMNIK: 1.Nf3 (BOOK 1a) - Alexander Khalifman (x8249)

The 14th FIDE World Champion offers you a repertoire after 1.Nf3, based on the games of World Champion Vladimir Kramnik. In volume 1a his high quality analysis focuses on the Old Indian Defence, an Anti-Grunfeld System and unusual offshoots of the Classical King's Indian Defence. Suitable for strong players from club level upwards.

Pub. 2006, softback, 308 pages. £14.99

OPENING FOR WHITE ACCORDING TO KRAMNIK: 1.Nf3 (BOOK 1b) - Alexander Khalifman (x8250)

This is a completely re-written edition of volume one of the "Kramnik" series with large amounts of new material included. In fact the increased amount of material has meant that this volume has had to be split into two parts. In Vol. 1b Alexander Khalifman examines the main line King's Indian after 1.Nf3,Nf6; 2.c4,g6; 3.Nc3,Bg7, 4.e4,d6; 5.d4,0-0; 6.Be2,e5; 7.0-0 and now Black's defences beginning with 7..Na6; 7..exd4; and 7..Nc6. Particular attention is devoted to the recommendation (after 7..Nc6;) 8.d5,Ne7; 9.b4 which Kramnik has done so much to popularize. The author offers a detailed analysis of these systems in a book suitable for stronger players. Alexander Khalifman was the 14th FIDE World Champion.

DANGEROUS WEAPONS: THE SICILIAN (p4423)

John Emms & Richard Palliser

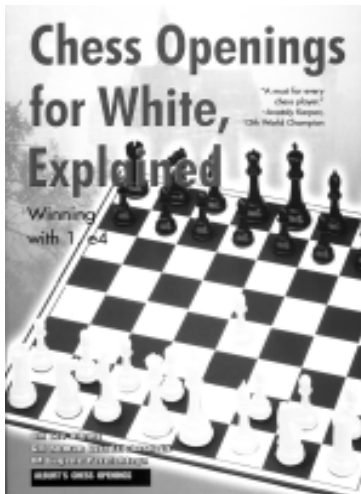

The Dangerous Weapons series concentrates on variations which are ambitious, sharp, tricky and innovative in any given opening. In this book the authors suggest opening ideas for both White and Black, in the Sicilian, which meet these criteria. With new ideas in the Najdorf, Sveshnikov, Dragon, O'Kelly, Lowenthal, Prin Variation, Sozin, Taimanov, Kan and even the Ga-Pa this book is brimming with hard-hitting innovations which will liven up any tournament player's repertoire. The massive 304 pages of explanation and analysis represents good value for money and a good start to this new series. John Emms and Chris Ward are English Grandmasters whilst Richard Palliser is an International Master. All three are respected authors with numerous successful chess books to their names.

CHESS OPENINGS FOR WHITE, EXPLAINED - Lev Albur & Roman Dzindzichashvili (c2311)

A heavyweight repertoire book for White featuring 1.e4! Against 1..e5; they recommend the Scotch Gambit (2.Nf3,Nc6; 3.d4,exd4; 4.Bc4) and give lines against both the Giuoco Piano and Two Knights Defences. Against the Petroff you play the dangerous attacking line 5.Nc3. They also show how to combat the less common Philidor Defence, Latvian Gambit and Elephant Gambit. Against the Sicilian you play the Grand Prix Attack (2.Nc3, 3.f4) whilst you meet the French with Fischer's favourite 3.Nc3. The Caro-Kann is met with another Fischer weapon - the Exchange System. There are also interesting ideas to try against the Alekhine Defence, Centre Counter, Pirc/Modern and other rare defences.

Throughout the book the authors concentrate on systems of play which are sound at any level and are very ideas orientated so you won't be struggling

to remember reams of cutting edge theory.

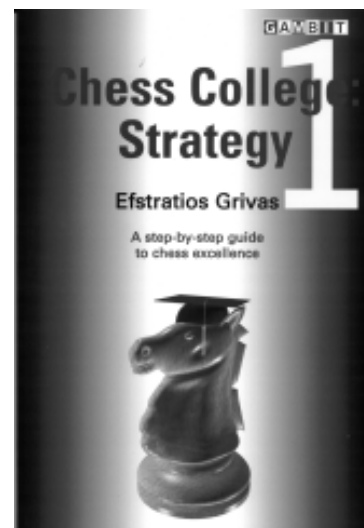

Chess Openings for White Explained has a spacious, well organized layout with plenty of diagrams, highlighted tips and memory markers at key points in the repertoire to aid assimilation of the material.

CHESS COLLEGE - Efstratios Grivas

VOLUME 1: STRATEGY (g0045)

Chess College is a new series of books to take intermediate players to new levels of chess understanding. New ideas are introduced and immediately illustrated by a number of entertaining and instructive examples, many drawn from the author's own practice. Volume 1: Strategy introduces a variety of topics, including: "Why do we lose?", Attack on the King, Two Bishops, Passed Pawn, Exchange Sacrifice, Positional Sacrifice, and Outpost. By drawing extensively upon his own games, Grivas is able to explain exactly what was going on over the board, and avoids the pitfall of providing overfamiliar, clichéd examples. This is part of a three-volume series that provides a wealth of instruction on many aspects of chess middlegames. Grandmaster Efstratios Grivas lives in Athens and is also a Senior FIDE Trainer, International Arbiter and Organizer.

Pub. 2006, softback, 111 pages. £12.99

VOLUME 2: PAWN PLAY (g0047)

Volume 2: Pawn Play discusses aspects of pawn play that are vital to successful chess, such as: Semi-open File, Isolated Pawn, Doubled Pawns, Backward Pawn, Hanging Pawns, Pawn Majority, Pawn Minority, Central Break. By drawing extensively upon his own games, Grivas is able to explain exactly what was going on over the board, and avoids the pitfall of providing overfamiliar, clichéd examples. This is part of a three-volume series that provides a wealth of instruction on many aspects of chess middlegames.

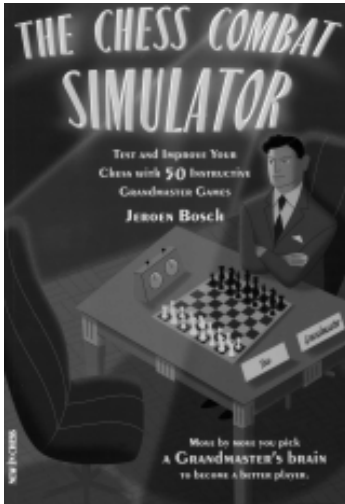

Pub. 2006, softback, 112 pages. £12.99

VOLUME 3: TECHNIQUE (g0057)

Volume 3: Technique features topics including the central break, bishop vs. knight, standard sacrifices against the castled position, opposite-coloured bishops, and immobilization, and discussions on topics such as how to handle won positions and lost positions, and positions with small advantages, together with a wealth of training tips. This book completes a three-volume series that provides a wealth of instruction on many aspects of chess middlegames.

CHESS COMBAT SIMULATOR - Jeroen Bosch (n1186)

A "Test Your Chess" style book in which the reader is invited to find the best moves in 50 grandmaster games. A point scoring system enables you to rate your performance on the ELO scale. You are invited to play a 'real' chess game against a Grandmaster - the difference is that the game has been played before. You can score points for each move, and at the end of each game you can rate your own performance. Don't be afraid if your move differs from the Grandmaster's choice: alternative moves are analysed and rated accordingly. Move by move you pick a Grandmaster's brain to become a better player! Jeroen Bosch is an International Master, an experienced coach, and a successful author. He is the editor of the best selling SOS - Secrets of Opening Surprises series.

101 CHESS ENDGAME TIPS - Steve Giddins (g0066)

Popular chess author Steve Giddins presents 101 ideas that are vital to successful endgame play. By absorbing and understanding these concepts and methods, you will be in a position to apply them in your own games. The tips are arranged according to the type of ending in question. This is an ideal book to read without using a chess set, as the abundant diagrams guide you through the analysis and illustrate the key points. All types of endings are covered, including both simple technical situations and more complex strategic battles. The tips include both pithy rules of thumb and general thinking methods. The examples are drawn from an immense variety of sources and based on Giddins' experiences as a player, coach and pupil. Steve Giddins is a FIDE Master from England who plays regularly in international events and has frequently contributed to the British Chess Magazine. He has gained a reputation as a writer who provides useful, no-nonsense advice on topics of genuine practical importance.

BEATING THE FIANCHETTO DEFENCES - Efstratios Grivas (g0048)

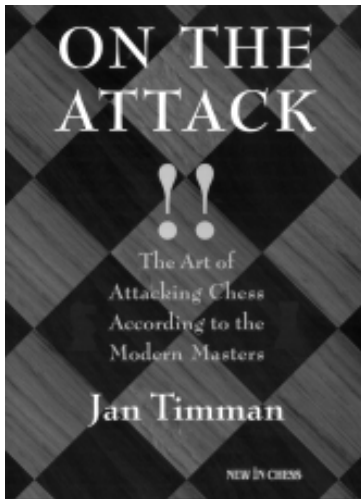

This book offers a detailed repertoire for White against five Black defences involving a fianchettoed bishop on g7. These are the King's Indian, Grunfeld, Benko, Benoni and Modern Defences. The repertoire is geared towards posing unconventional problems for Black in somewhat atypical positions for each defence. In each chapter Grivas explores some typical endgames for the defence in question before moving on to exploring the theory behind the attacking systems he has chosen. A deeply researched repertoire book which is not dependent upon the latest trends in opening theory. Author Efstratios Grivas is a Greek Grandmaster, FIDE Senior Trainer and International Arbiter.

SECRETS OF OPENING SURPRISES VOL. 5 - Jeroen Bosch (Ed) (n1170)

Volume 5 of this popular series brings you some astounding new ideas in seventeen different openings. With contributors such as Sergey Tiviakov, Dorian Rogozenko, Hikaru Nakamura and many other GMs and IMs you can be assured that these surprise weapons will pack plenty of punch. All these SOS ideas feature new moves early in the game so you will get plenty of chance to employ them in play. They are illustrated through a combination of complete games and analysis to give you a solid understanding of both theory and practice. Editor Jeroen Bosch is an International Master and a prolific chess writer.

ON THE ATTACK - Jan Timman (n1187)

This book is an opportunity to see the attacking style of some of the world's leading and most active players. GM Jan Timman annotates three games each from eleven attacking players including Topalov, Shirov, Anand, Kasparov, Karpov and Short. The games were played in the last 25 years and offer an insight into the way top Grandmasters build up an attack against tough opposition. In addition to the complete games Timman has also annotated 33 game fragments which he found noteworthy for their brilliance, originality and modern attacking ideas. This is a nice game collection containing some spectacular chess. Jan Timman is a Dutch Grandmaster, former World Championship candidate and Editor-in-chief of New in Chess Magazine.

VAN PERLO'S ENDGAME TACTICS - G C van Perlo (n1168)

English Chess Federation Book of the Year 2006.

1105 diagrammed endgame fragments from actual games with chapters on pawn, rook, minor piece and queen endgames. This book is the result of 30 years of collecting, analyzing and categorizing, by the author, of tactical endgames which appealed to him. Many of the positions and games will be unknown to the reader.

The book is indexed, according to player names but is eminently browseable as well. G C van Perlo is a Dutch correspondence chess Grandmaster.

BOTVINNIK'S SECRET GAMES - Jan Timman (s2178)

Mikhail Botvinnik was World Champion three times, from 1948-1957, 1958 - 1960 and 1961 - 1963 and his advance preparation for matches was feared by the greatest. It even involved the radio blaring while he was playing training games as well as having opponents blow smoke in his eyes during practice games, in order to acclimatise himself for the real thing. Botvinnik's training games were a well guarded secret, shared only by a few trusty colleagues, such as Grandmasters Ragozin, Averbakh and Furman. As a result these games have lain hidden for decades. This book presents 97 of his training games, played between 1936 and 1970, some with annotations but mostly unannotated. Also included are an introduction by Jan Timman, on the theoretical importance of the games and a description by Yuri Averbakh of what it was like

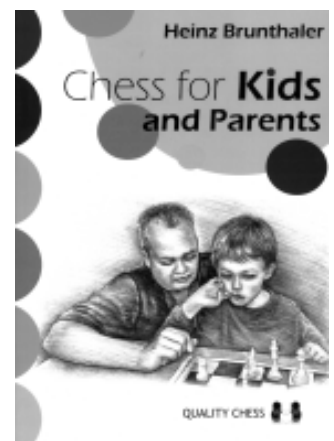

to take part in a Botvinnik training match.

CHESS FOR KIDS AND PARENTS - Heinz Brunthaler (q0045)

Many parents want to help their children to study chess, but don't know how to do it. This book offers a solution. It is a practical handbook that teaches the mysteries of chess with a light touch. All rules and aspects of the game are covered but the authors assume that the reader already knows the basic rules of the game (i.e. how the pieces move and capture and the concept of checkmate and check). This book will help children progress from beginner level to playing in tournaments. It contains a simple but effective training programme that includes topics such as openings, tactics, simple checkmates, endgames and many more. Many tests are included, with clearly explained solutions, to ensure the reader has understood the lesson.

OPENING FOR WHITE ACCORDING TO ANAND: VOL. 8

Alexander Khalifman (x8253)

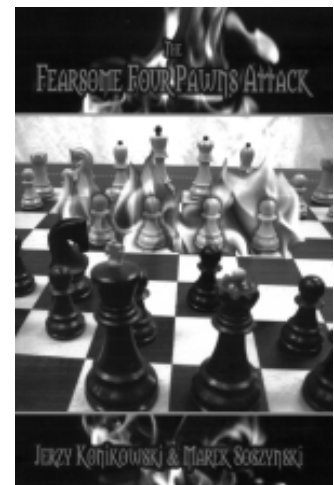

Volume 8 in this popular series begins to examine the Sicilian Defence and proposes a repertoire for White based on the praxis of top Indian GM Vishy Anand. Systems considered here are the Nimzowitsch Sicilian (1.e4,c5; 2.Nf3,Nf6;) The O'Kelly Variation (1.e4,c5; 2.Nf3,a6;) various counter-attack lines which Black can play after 2..e6; (e.g. the pin variation) AND THE Paulsen-Kan System which occupies the main part of the book. Recommended lines include 3.Nc3 against the Nimzowitsch System, 3.c3 against the O'Kelly and 5.Bd3 against the Kan-Paulsen System. As usual for this series former World Champion Alexander Khalifman offers high quality analysis and explanation with theoretical conclusions at the end of each chapter.

FEARSOME FOUR PAWNS ATTACK- Jerzy Konikowski & Marek Soszynski (r9027)

In depth analysis of the position after 1.d4,Nf6; 2.c4,g6; 3.Nc3,Bg7; 4.e4,d6; 5.f4,0-0; 6.Nf3. The authors provide objective coverage in this traditional-style opening book with 18 chapters of analysis plus 63 annotated games. Early chapters examine deviations from the main line for both sides whilst Black's main 9th move choices 9..Bg4/..b5/..Na6 and 9..Nbd7 each have their own chapter. Jerzy Konikowski is a FIDE Master and well known author. Marek Soszynski is co-author of the acclaimed "How to Think in Chess".

CHESS EXPLAINED: THE TAIMANOV SYSTEM - James Rizzitano (g0062)

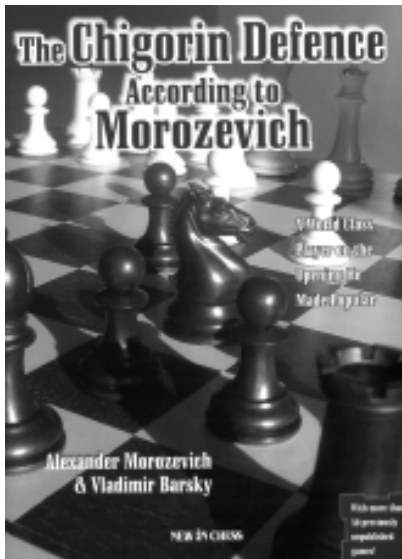

This guide to the Taimanov Sicilian (1.e4,c5; 2.Nf3,e6; 3.d4,exd4; 4.Nxd4,Nc6) is aimed at experienced players who want to try the Taimanov for the first time, from either the White or Black side. With this in mind, the emphasis is on explaining typical plans and strategies in the context of 25 extensively annotated, high level, key games. The games have been selected as they illustrate many standard Taimanov Sicilian middlegame and endgame positions and themes. The material is divided into six chapters: 1) Probing Bishop and Maroczy Bind Variations 5.Nb5, 2) Taimanov Introduction 5.Nc3, a6; 3) White's Sixth Move Alternatives 5.Nc3,Qc7; 4) Flexible Variation 5.Nc3,Qc7; 6.Be2, 5) Sharp Variation 5.Nc3,Qc7; 6.Be3, 6) Paulsen Main Line 5.Nc3,Qc7; 6.Be3,a6; 7.Be2. Chapter introductions and conclusions emphasise the key points of each system. James Rizzitano is an American I.M. and author with extensive experience playing the Taimanov Sicilian.

CHIGORIN DEFENCE ACCORDING TO MOROZEVICH Alexander Morozevich & Vladimir Barsky (n1200)

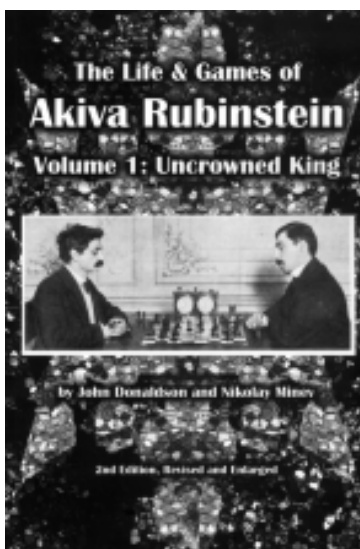

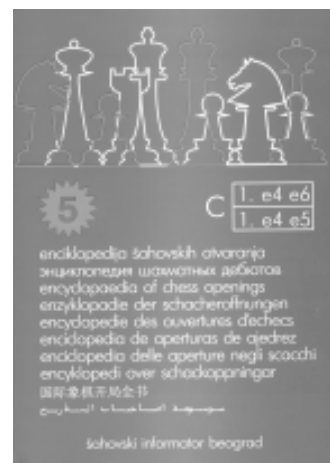

GM Alexander Morozevich has been the leading exponent of the Chigorin Defence to the Queen's Gambit (1.d4,d5; 2.c4,Nc6;) for many years now, playing it against the world's leading players with great success. In this book, a labour of love for him, he reveals many of the secrets of the Chigorin, using his own analysis and over 50, previously unpublished, rapid and blitz games against other Grandmasters. In all his book includes 74 annotated games, organised into four main chapters, which he uses to illustrate the strategy and tactics of the Chigorin Defence. All of White's responses are considered including 3.Nc3, 3.Nf3, 3.cxd5, 3.e3, 3.g3, and other 3rd move alternatives. Alexander Morozevich has been a top-ten player for almost a decade. Vladimir Barsky is an International Master, a successful coach, an experienced journalist and an intimate friend of Alexander Morozevich.

LIFE AND GAMES OF AKIVA RUBINSTEIN: VOL.1 (g0049) John Donaldson & Nikolai Minev

This revised reprint of "Akiba Rubinstein: Uncrowned King" includes five new games from the Ostend tournament of 1906 but otherwise is a faithful copy of an outstanding and carefully researched book on one of the chess world's greatest players. Rubinstein could and did outplay the leading players of his day such as Capablanca and Lasker but, in spite of many fine tournament victories, did not possess the psychological strength to defeat them consistently in match play. Nevertheless many of his games remain exemplars of logic and beauty in chess and repay careful study even today. This edition contains nearly 500 of Rubinstein's games with annotations from top players of the time including Lasker, Tarrasch and Rubinstein himself. The book includes tournament crosstables, biographical information, annotated games and indexes of opponents, openings and annotators. This is a book worth having in any chess library.

MODERN MORRA GAMBIT: A DYNAMIC WEAPON AGAINST THE SICILIAN - Hannes Langrock (r9032)

This major new work on the Morra Gambit (1.e4,c5; 2.d4,cxd4; 3.c3) includes both analysis and key games which attempt to provide an objective assessment of both sides' chances in this sharp opening system. The author has made the Morra his main weapon against the Sicilian and has plenty of experience in the kind of positions arising. He has based his choice of stem games on the quality of moves chosen, the popularity of the system under consideration, the strength of the players involved and the overall quality of the games themselves. In eleven chapters he examines all Black's major and lesser played defensive set-ups and includes a chapter on the Morra Declined. This is the most comprehensive book on the Morra Gambit for many years and one which no prospective Morra or Sicilian player should be without. Author Hannes Langrock is a German FIDE Master and winner of the German Individual Cup in 2002.

HARRY NELSON PILLSBURY - Alexander Cherniaev (o2903)

This new book on Pillsbury has been published to coincide with the 100th anniversary of his death. Pillsbury became famous by winning the 1895 Hastings tournament ahead of Chigorin, Lasker, Tarrasch, Steinitz and many other strong masters. His direct, attacking style won him many admirers as did his impressive blindfold and simultaneous exhibitions. Although he never had a chance to play a match for the World championship, Pillsbury remained amongst the world's top players almost until his untimely death at the age of 33. In this book GM Alexander Cherniaev presents 50 of Pillsbury's best games, with annotations. He also includes a short biography and tournament cross tables detailing Pillsbury's career record. Alexander Cherniaev is a Russian Grandmaster now based in London.

PRACTICAL CHESS DEFENCE - Jacob Aagaard (q2444)

In today's computer age many old ideas about chess have been overturned or, at least, revised. Here I.M. Jacob Aagaard casts his eye on defensive methods in the light of modern developments. He considers defensive thinking through concepts such as unforcing thinking, the method of elimination and prophylaxis before moving on to discuss defensive methods of use to the practical player. All these ideas are illustrated with examples from modern play. The second, larger, part of the book consists of 200 diagrammed exercises, of increasing difficulty, in the art of defensive play. Detailed discussion of these positions can be found in the "solutions" section. The emphasis throughout is on modern, post-computer age, ways of thinking. The aim is to improve your game and enjoy solving some very challenging puzzles at the same time! I.M Jacob Aagaard is one of the most successful chess writers of the present day with several highly regarded books to his

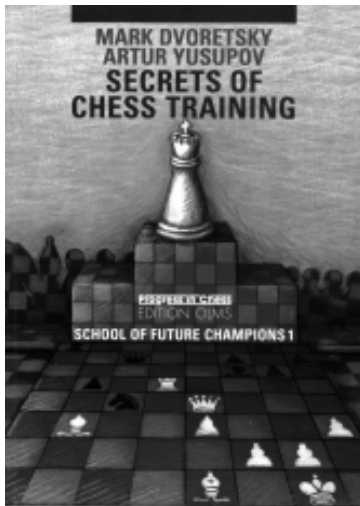

name.

ART OF PLANNING IN CHESS - Neil McDonald (b9025)

McDonald takes a move-by-move look at 36 of the most outstanding games from the past six years. The author's detailed annotations put an emphasis on planning and he gives clear explanations of the purpose of each move and how Grandmasters develop their strategy during the course of a game. An excellent follow-up to the same author's Art of Logical Thinking.

SECRETS OF CHESS TRAINING: SCHOOL OF FUTURE CHAMPIONS 1 - Mark Dvoretsky & Artur Yusupov (L0515)

The world's top trainer, Mark Dvoretsky, and one of his best-known pupils, grandmaster Artur Yusupov, present a five-volume series based on courses given to talented young players throughout the world. The books contain contributions by other leading trainers and grandmasters, as well as games by pupils who have attended the courses. In this first volume the reader is shown how to assess his strengths and weaknesses, analyse his own games, and learn from the rich heritage of the past by a study of the chess classics. Over a hundred graded test positions provide ample material for self-improvement. This book is a revised and re-translated edition of the work originally published by Batsford as "Training for the Tournament Player".

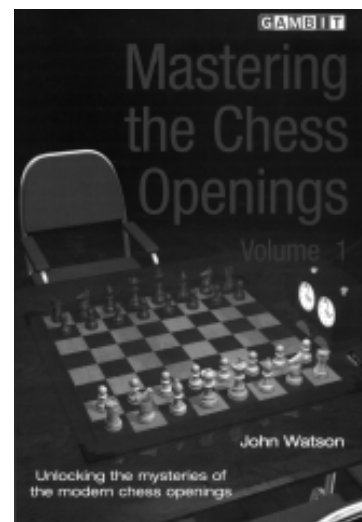

Pub. 2006, softback, 220 pages. £18.00

MASTERING THE CHESS OPENINGS: VOL. 1 - John Watson (g0060)

This is the first part of a major two volume work on chess openings which emphasises the ideas, strategies and connection between various different chess openings. Volume one is devoted to e-pawn openings and aims to give players of all strengths an idea of the way each opening is played, what to aim for and what can go wrong. In the first three chapters of the book Watson explains the Nature of Chess Openings, Opening Ideas and Positional Features and the Significance of Structure. The rest of the book is devoted to an examination of various e-pawn openings; their ideas, themes and an explanation of the most important lines of play in each opening. The two main sections cover open games and semi-open games and the extent to which pawn structures from different openings can overlap is also discussed. The book is not comprehensive in that only certain openings and variations are discussed. The emphasis is on providing a good grounding in opening play rather than an encyclopaedic coverage of variations.

International Master John Watson is one of the world's most respected writers on chess. In 1999, *Secrets of Modern Chess Strategy* won the British Chess Federation Book of the Year Award and the United States Chess Federation Fred Cramer Award for Best Book.

CHESS EXPLAINED: THE ENGLISH OPENING - Zenon Franco (g0059)

The English Opening can give rise to a wide variety of pawn structures with both slow, manoeuvring games and open tactical play possible. In this book GM Zenon Franco examines three main groups of structures: the Symmetrical English (1.c4,c5;), the Reversed Sicilian (1.c4,e5;) and the Nimzo-English (1.c4,Nf6; 2.Nc3,e6;). The material is covered in 25 complete, annotated games, selected because they demonstrate typical positions, ideas and tactics in the three main structures discussed. Coverage is balanced with both sides' plans discussed in detail. Each chapter has a summary of key points and the book includes indexes of variations and games. Chapter headings: 1.The Hedgehog, 2.Double Fianchetto, 3.Symmetrical Miscellaneous, 4.Rubinstein System, 5.Reversed Rossolimo, 6.1.c4,e5; Miscellaneous, 7.Nimzo-English and Mikenas Attack. The author is a Grandmaster from Paraguay now living in Spain.

WINNING CHESS COMBINATIONS - SEIRAWAN (p4420)

This guide to the magical world of chess combinations features examples of varying complexity, taken from grandmaster play, in which you are often invited to find the best continuation. Seirawan also introduces some basic combination types and patterns and includes a chapter of test positions with solutions. A combination involves a sacrifice upsetting the balance of forces, but will it work or tragically boomerang? The reader is invited to solve this critical question by identifying the advantages that a specific position holds which might make the combination successful. Winning Chess Combinations is the seventh in Yasser Seirawan's highly acclaimed Winning chess series. The author is a four time U.S. Champion.

SEARCH FOR CHESS PERFECTION 2 - CJS PURDY (t1030)

A new edition of this chess classic (originally entitled "CJS Purdy - His Life, Games and Writings") which has sold tens of thousands of copies since it first appeared. Purdy was the first World Correspondence Chess Champion and four times Australian Champion. His writings were voluminous, appearing mainly in the Australian Chess review, and established him as one of the world's leading chess journalists and teachers. His output, which covered all aspects of chess strategy, occupies the main part of this book. It covers practical issues such as How to Avoid Errors as well as more concrete issues such as isolated d-pawns. The book also contains a biography written by Purdy's widow Anne and 29 of Purdy's games annotated by the man himself.

DVORETSKY'S ENDGAME MANUAL (2nd Ed) (r9028)

Renowned Russian chess coach and author Mark Dvoretsky has written what is surely destined to be a standard treatise on endgames for many years to come. He provides, in fifteen chapters, all the important information which you need in order to understand endgames with various material imbalances. Key positions and ideas, which must be learned, are printed in blue with additional material and further examples in black, making it easy for the reader to grasp the essentials of any endgame quickly. Dvoretsky manages to combine clarity in explaining the strategy of each ending with accuracy in his deep analysis of some positions, often overturning the previous analysis of other strong players. There are chapters on: Pawn, Knight, Bishop, Knight v Bishop, Rook, Rook v Minor Piece, Queen & Queen v Rook endings. The final two chapters cover other material imbalances and General Endgame Ideas. Each chapter ends with a set of diagrammed exercises the solutions to which are in the final chapter of the book. For the second edition the author has re-worked the section on rook endings in the light of recent discoveries.

PETROSIAN VS THE ELITE - R Keene & J Simpole (b9049)

Tigran Petrosian was World Champion for six years from 1963-1969, four time Soviet Champion, Olympiad gold medallist and, throughout his career, one of the most difficult Grandmasters to beat. He had a reputation as a master of positional manoeuvring although, as can be seen from the games here, he was a fine tactician when the occasion required. Petrosian's career up to 1963, when he became World champion, was admirably documented in Peter Clarke's book "Petrosian's Best Games" and so, for this book, the authors have selected games which do not appear in the earlier work. In all they include 71 of Petrosian's best games and provide extensive explanations and annotations to every game. The book also includes tournament tables, indexes of openings and opponents and an introduction highlighting some of the most important and controversial moments from Petrosian's career.
